

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. VOLUNTARY SCHOOLS ACT, 1897.

[60 VICT. c. 5.]

A.D. 1897. AN ACT to provide for a Grant out of the Exchequer in Aid of Voluntary Elementary Schools, and for the Exemption from Rates of those Schools, and to repeal part of Section Nineteen of the Elementary Education Act, 1876.

[8th April 1897.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

Aid grant to voluntary elementary schools.

1.—(1.) For aiding voluntary schools there shall be annually paid out of moneys provided by Parliament an aid grant, not exceeding in the aggregate five shillings per scholar for the whole number of scholars in those schools.

(2.) The aid grant shall be distributed by the Education Department to such voluntary schools and in such manner and amounts as the Department think best for the purpose of helping necessitous schools and increasing their efficiency, due regard being had to the maintenance of voluntary subscriptions.

(3.) If associations of schools are constituted in such manner in such areas and with such governing bodies representative of the managers as are approved by the Education Department, there shall be allotted to each association while so approved,

(a) A share of the aid grant to be computed according to the number of scholars in the schools of the association at the rate of five shillings per scholar, or, if the Department fix different rates for town and country schools respectively (which they are hereby empowered to do) then at those rates ; and

(b) A corresponding share of any sum which may be available out of the aid grant after distribution has been made to unassociated schools.

(4.) The share so allotted to each such association shall be distributed as aforesaid by the Education Department after consulting the governing body of the association, and in accordance with any scheme prepared by that body which the Department for the time being approve.

(5.) The Education Department may exclude a school from any share of the aid grant which it might otherwise receive, if, in the opinion of the Department, it unreasonably refuses or fails to join such an association, but the refusal or failure shall not be deemed unreasonable if the majority of the schools in the association belong to a religious denomination to which the school in question does not itself belong.

(6.) The Education Department may require, as a condition of a school receiving a share of the aid grant, that the accounts of the receipts and expenditure of the school shall be annually audited in accordance with the regulations of the Department. A.D. 1897.

(7.) The decision of the Education Department upon any question relating to the distribution or allotment of the aid grant, including the question whether an association is or is not in conformity with this Act, and whether a school is a town or a country school, shall be final.

2. After the last day of March, One thousand eight hundred and ninety-seven, the following words in section nineteen of the Elementary Education Act, 1876, namely, "such grant shall not in any year be reduced by reason of its excess above the income of the school if the grant do not exceed the amount of seven-teen shillings and sixpence per child in average attendance at the school during that year, but shall not exceed that amount per child, except by the same sum by which the income of the school derived from voluntary contributions, rates, school fees, endowments, or any source whatever other than the Parliamentary grant, exceeds the said amount per child, and" shall be repealed so far as they apply to day schools in England and Wales. Repeal of 17s. 6d. limit in 39 and 40 Vict., c. 79, s. 19, as respects day schools in England and Wales.

3. No person shall be assessed or rated to or for any local rate in respect of any land or buildings used exclusively or mainly for the purposes of the schoolrooms, offices, or playground of a voluntary school, except to the extent of any profit derived by the managers of the school from the letting thereof. Exemption from rates of voluntary elementary schools.

4. In this Act, unless the context otherwise requires— Definitions.

The expression "voluntary school" means a public elementary day school not provided by a school board:

Any reference to the number of scholars in schools means the number of scholars in average attendance as computed by the Education Department:

The expression "local rate" means a rate the proceeds of which are applicable to public local purposes, and which is leviable on the basis of an assessment in respect of the yearly value of property, and includes any sum which, though obtained in the first instance by a precept, certificate or other instrument requiring payment from some authority or officer, is or can be ultimately raised out of a local rate as before defined:

Other expressions have the same meaning as in the Elementary Education Acts, 1870 to 1893.

5.—(1.) This Act shall not extend to Scotland or Ireland.

(2.) This Act may be cited as the Voluntary Schools Act, 1897. Extent of Act and short title.

VOLUNTARY SCHOOLS ACT, 1897.

MINUTE of the Lords of the Committee of the Privy Council
on Education.

At the Council Chamber, Whitehall,

*The 9th day of April 1897.*By the Lords of the Committee of Her Majesty's Most
Honourable Privy Council on Education.

Their Lordships, having had under consideration Section 1 of the Voluntary Schools Act, 1897, read and approved the following Minute:—

1. The Aid Grant will be allotted according as schools are grouped together in Associations recognised by the Department, or are not so grouped.

2. As a general rule, an Association will not be recognised by the Department unless it extends over a sufficiently wide area, and includes a large number of schools.

3. An Association may include schools of all denominations. More than one Association may be recognised in the same area, but only one Association may be recognised as providing exclusively for schools of the same denomination in the same area.

4. Subject to the provisions of Sub-sections (1) and (3) (a) of Clause 1 of the Act, the rate of Aid Grant per scholar in average attendance, for the purposes of allotment, will be prescribed by the Department for each financial year, and will differ according as the scholar is in a school situate in a town or in the country. The rate prescribed for each scholar in average attendance in a town school will be somewhat higher than that for each scholar in average attendance in a country school.

5. The Aid Grant will be allotted to each Association upon the basis of the average attendance of scholars in the schools of the Association. The average attendance in each school, for the purposes of the Aid Grant in each financial year, will be taken to be the average attendance for the school year ended next before the 1st day of August last preceding.

6. Out of the sum not at first allotted to the Associations, Aid Grant will, subject to the provisions contained in Sub-section (5) of Clause 1 of the Act, be awarded to such of the unassociated schools as require special aid, and so far as such aid is in the opinion of the Department required.

7. The surplus (if any) of the Aid Grant remaining, after setting aside a sum sufficient to satisfy the needs of the unassociated schools under the last preceding paragraph, will be allotted amongst the Associations upon the same basis of distribution as has been specified above, with regard to their original share of the Aid Grant.

8. The Aid Grant to schools in Associations will be distributed to the schools in each Association, in accordance with a scheme prepared by the Governing Body of the Association and approved by the Department, under Sub-section (4) of Clause (1) of the Act. In order to aid the Department in forming a judgment on the schemes submitted to Them, the purposes to which the grant is to be devoted in the case of the various schools aided, should as far as possible be specifically stated.

9. The Aid Grant to schools not in Associations will be distributed to such schools in accordance with the decision of the Department, having regard to the provisions of Sub-section (2) of Clause 1 of the Act.

10. Payment of the Aid Grant to the schools entitled to receive it will be made at such times and in such manner as the Department may direct.

- MINUTE of the Committee of Council on Education, *dated 16th June, 1897*, defining "Town School" and "Country School," and fixing Rates of Aid Grant for such Schools (Voluntary Schools Act, 1897).
-

- At the Council Chamber, Whitehall,

The 16th day of June 1897.

By the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education.

The Lords of the Committee of Council on Education, having had under consideration the Voluntary Schools Act, 1897 :—

Decided,—

A Voluntary School, which on the first day of April in any year is situated within the District of the County Council of London, or within a County Borough, Municipal Borough, or other Urban District, shall be a Town School for the purpose of any allotment of the Aid Grant under Section 1, 3 (a), of the Act during the year beginning the same 1st day of April, and any School not so situated shall be a Country School for the same purpose.

Their Lordships further decided, in virtue of the powers vested in them by the said Act, that until the issue of any further Minute in that behalf, the following rates be fixed for Town and Country Schools respectively :—

For Town Schools the rate of 5s. 9d. per scholar.

For Country Schools the rate of 3s. 3d. per scholar.

S C H E M E S

UNDER

THE VOLUNTARY SCHOOLS ACT.

[This Memorandum incorporates as much of the Circulars of 18th April, 1898, and 29th March, 1899, as appears to be of permanent application.]

I. The first point to be considered in the preparation of a Scheme is the relative necessity of the individual Schools. Care should be taken to select with strict and impartial discrimination the cases of real necessity, and to confine the recommendations, as far as possible, to such cases only. There are, of course, many schools whose resources are sufficient for their ordinary expenditure, but not sufficient to meet some special and exceptional requirement. These cases may be exceptionally dealt with, and a grant recommended *pro hâc vice* commensurate with the special need. The amount of grant recommended should always be fixed in accordance with the special needs of each particular School, and not on any automatic principle based on average attendance.

II. Under the Voluntary Schools Act the Aid Grant must be distributed with "due regard to the maintenance of Voluntary Subscriptions." The Governing Bodies have been furnished from time to time with Schedules of Schools where the Voluntary Contributions have declined, and with copies of the explanations tendered by the Managers. It is hoped that the cases of such Schools will be carefully considered by the Governing Bodies when preparing their next Schemes.

In the case of those Schools where, after due warning, Voluntary Contributions are not forthcoming, or are less than might be reasonably expected, it will be the duty of the Governing Body to reduce the amount of Aid Grant, or even to withhold it altogether. It will be convenient for them to inform the Board of Education of any cases where this is done. The Board may be unable to sanction recommendations of Aid Grant to Schools whose Managers have not made reasonable efforts to secure for them a proper measure of local support.

A diminution of local support seems often to be brought about less by a loss of individual subscriptions than by a relaxation or diversion, of local effort in the form of collections, bazaars, entertainments, and the like, or by letting drop contributions previously obtained from Endowments, Charitable Funds, and Educational Societies. Wherever income formerly drawn from such sources has disappeared, the Governing Body should enquire into the facts, and satisfy themselves as to whether the loss to the school is unavoidable.

In close connection with the question of Voluntary Contributions comes the charge of a rent (as determining the amount of effective local support towards the maintenance of the school). It has been found that, in certain cases, a new rent, or an increased rent, has been charged since the passing of the Voluntary Schools Act. In all such cases which have come under notice an enquiry has been made, and in a few extreme instances the Aid Grant has been withheld unless the charge for rent or additional rent is discontinued. It does not at present appear desirable to make any precise regulation, but, as a general rule, any charge for a new rent or additional rent should be met from other sources than the grants. The Governing Body should give the circumstances under which any rent is charged special consideration before recommending an award of Aid Grant.

III. The chief purposes to which Aid Grant may be applied have been grouped under three heads—

- (a) Improvement of teaching power.
- (b) Improvement of School equipment.
- (c) Making adequate provision for the maintenance of due efficiency.

(a) The first of these heads includes all such purposes as augmenting the School Staff, the engagement of more highly qualified teachers, the better instruction of pupil teachers by means of Central Classes or otherwise, provision for teaching Cookery or other special subjects, and encouragement of good work and proper support of the teachers by the payment of adequate salaries. Before recommending a grant to increase salaries, the Governing Body should satisfy themselves that the existing salaries are inadequate, and that the qualifications and necessities of the teacher are such as to warrant the increase. They should further ascertain and clearly state to what class of teachers, whether Head or Assistant, the increase is to be given.

Before a grant is recommended to maintain an increase in salaries made since the passing of the Voluntary Schools Act, it should be ascertained that such increase has actually taken place. It should further be understood that the mere fact of a portion of the Aid Grant having been applied to an increased scale of salaries in one year does not in itself constitute a claim for a renewal of the grant in future years. The increased scale must be a suitable one, and the circumstances of the school must still be such as to make the proposed grant reasonable both in purpose and amount. A grant to maintain increased salaries should not exceed the nett amount by which the total expenditure on the Staff has been actually increased.

(b) Equipment.—Under this head may be grouped all such objects as repairs and improvements of School premises, replacement or improvement of furniture, requisite apparatus, and the like.

Special care should be taken to ensure that the grant will be applied to the minor improvements of existing premises only, and not to additional buildings, and the provisions of Article 90 should be held in view. The precise nature of the improvement

contemplated should in each case be ascertained and clearly defined in the recommendation made to the Board.

In recommending grants under this head the intention should be to enable the School to meet some special outlay which could not be defrayed out of the ordinary income of the School, and not, as has occurred in some cases, to meet the necessary annual expenditure on such items as stationery and trivial repairs.

(c) Making adequate provision for the maintenance of due efficiency.

It has always been recognised by the Board that in a large number of cases the Aid Grant must wholly or in part be devoted to the maintenance of the existing standard of efficiency. But grants to meet a necessary annual deficit require to be made with special care and discretion. In Form 5 (V.S.) it is proposed that "grant to meet the deficit" should be applied to maintaining the normal expenditure on (a) Salaries, or (b) Books, Apparatus and Stationery. By this means it is hoped that the Governing Body and the Board will be able to satisfy themselves that the grant has been used in such a manner as will benefit the School.

A deficit on a school account means the amount by which a year's actual expenditure for the support of the School exceeds, or, in the case of an estimated deficit, is likely to exceed, the actual income received during the same year, inclusive of the Annual and Fee Grants.

Before recommending any grant to meet deficit, the Governing Body should have special regard to the amount of local support afforded to the School. Where the amount of such support is materially below what might be reasonably expected, and where the lack of funds appears to arise from apathetic management, the Governing Body will exercise a wise discretion in not recommending any grant to meet a deficit. Still less should a grant be recommended (save in exceptional cases) to meet a deficit which has arisen from a diminution in the amount of the Voluntary Subscriptions.

On the other hand, the Governing Body should be on their guard against any case where the deficit may have arisen from unwarrantable expenditure, from the adoption of too ambitious a curriculum, or from an improvident use of the existing School Funds.

It is desirable that all schools should be raised to as high a degree of efficiency as possible. It is, however, more important to increase the efficiency of those Schools where the standard is not above, or is even below, the average than it is to enable an altogether exceptional standard to be maintained in a few Schools. The Governing Body may, therefore, properly refuse to recommend a grant to meet deficit, where such deficit is in their opinion due to over lavish expenditure, or to the adoption of a curriculum which is not well adapted to the circumstances of the School, or to the needs of the district in which the School is situated.

(d) In Form 5 (V.S.) an opportunity is given for the Governing Body to recommend a grant for some purpose which would not come under any of the three previous heads. It has not often been found necessary to propose such a purpose. "Rent" in any form cannot be approved as a purpose for Aid Grant. Nor is "Fuel, Light and Cleaning" suitable. This latter item of expenditure is one that should be met in all schools out of ordinary income; a grant to pay for it is merely a grant to meet deficit.

April, 1900.

—List of Associations constituted under the Voluntary Schools Act, 1897, showing for each Association, the area, the number of Schools, the total average attendance as computed in accordance with the Minute of 9th April 1897, and the share of Aid Grant allotted for the financial year ending 31st March 1900.

NOTE.

The average attendance is the total average attendance of the Scholars in the Schools of the Association for the School years ended next before 1st August 1898. (See paragraph 5 of the Minute of the Committee of Council, dated 9th April 1897).

ASSOCIATION OF JEWISH SCHOOLS.

Jewish	England and Wales	12	9,971	2,908 17 2	154
--------	-------------------	----	-------	------------	-----

II.—List of Associated Schools, classifying them as Town or Country Schools in accordance with the Minute of 16th June 1897, and showing for each School the amount, if any, of Aid Grant paid, for the financial year ending 31st March 1900.

NOTE

N. or Ch. denotes that the School is in connection with the National Society, or with the Church of England; B., with the British and Foreign School Society; W., with the Wesleyan Methodists' Conference; R.C., with the Roman Catholic Poor School Committee; P., that it is a Parochial School.

VOLUNTARY SCHOOLS ACT, 1897.

[60 VICT. c. 5.]

AN ACT to provide for a Grant out of the Exchequer in Aid of Voluntary Elementary Schools, and for the Exemption from Rates of those Schools, and to repeal part of Section Nineteen of the Elementary Education Act, 1876. A.D. 1897. —

[8th April 1897.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

1—(1.) For aiding voluntary schools there shall be annually paid out of moneys provided by Parliament an aid grant, not exceeding in the aggregate five shillings per scholar for the whole number of scholars in those schools. Aid grant to voluntary elementary schools.

(2.) The aid grant shall be distributed by the Education Department to such voluntary schools and in such manner and amounts as the Department think best for the purpose of helping necessitous schools and increasing their efficiency, due regard being had to the maintenance of voluntary subscriptions.

(3.) If associations of schools are constituted in such manner in such areas and with such governing bodies representative of the managers as are approved by the Education Department, there shall be allotted to each association while so approved,

(a) A share of the aid grant to be computed according to the number of scholars in the schools of the association at the rate of five shillings per scholar, or, if the Department fix different rates for town and country schools respectively (which they are hereby empowered to do) then at those rates ; and

(b) A corresponding share of any sum which may be available out of the aid grant after distribution has been made to unassociated schools.

(4.) The share so allotted to each such association shall be distributed as aforesaid by the Education Department after consulting the governing body of the association, and in accordance with any scheme prepared by that body which the Department for the time being approve.

(5.) The Education Department may exclude a school from any share of the aid grant which it might otherwise receive, if, in the opinion of the Department, it unreasonably refuses or fails to join such an association, but the refusal or failure shall not be deemed unreasonable if the majority of the schools in the association belong to a religious denomination to which the school in question does not itself belong.

A.D. 1897.

(6.) The Education Department may require, as a condition of a school receiving a share of the aid grant, that the accounts of the receipts and expenditure of the school shall be annually audited in accordance with the regulations of the Department.

(7.) The decision of the Education Department upon any question relating to the distribution or allotment of the aid grant, including the question whether an association is or is not in conformity with this Act, and whether a school is a town or a country school, shall be final.

Repeal of
17s. 6d. limit
in 39 and 40
Vict., c. 79,
s. 19, as
respects day
schools in
England and
Wales.

2. After the last day of March, One thousand eight hundred and ninety-seven, the following words in section nineteen of the Elementary Education Act, 1876, namely, "such grant shall not in any year be reduced by reason of its excess above the income of the school if the grant do not exceed the amount of seven-teen shillings and sixpence per child in average attendance at the school during that year, but shall not exceed that amount per child, except by the same sum by which the income of the school derived from voluntary contributions, rates, school fees, endowments, or any source whatever other than the Parliamentary grant, exceeds the said amount per child, and" shall be repealed so far as they apply to day schools in England and Wales.

Exemption
from rates of
voluntary
elementary
schools.

3. No person shall be assessed or rated to or for any local rate in respect of any land or buildings used exclusively or mainly for the purposes of the schoolrooms, offices, or playground of a voluntary school, except to the extent of any profit derived by the managers of the school from the letting thereof.

Definitions.

4. In this Act, unless the context otherwise requires—

The expression "voluntary school" means a public elementary day school not provided by a school board :

Any reference to the number of scholars in schools means the number of scholars in average attendance as computed by the Education Department :

The expression "local rate" means a rate the proceeds of which are applicable to public local purposes, and which is leviable on the basis of an assessment in respect of the yearly value of property, and includes any sum which, though obtained in the first instance by a precept, certificate or other instrument requiring payment from some authority or officer, is or can be ultimately raised out of a local rate as before defined :

Other expressions have the same meaning as in the Elementary Education Acts, 1870 to 1893.

Extent of
Act and
short title.

5.—(1.) This Act shall not extend to Scotland or Ireland.

(2.) This Act may be cited as the Voluntary Schools Act, 1897.

VOLUNTARY SCHOOLS ACT, 1897.

MINUTE of the Lords of the Committee of the Privy Council
on Education.

At the Council Chamber, Whitehall,

The 9th day of April 1897.

By the Lords of the Committee of Her Majesty's Most
Honourable Privy Council on Education.

Their Lordships, having had under consideration Section 1 of the Voluntary Schools Act, 1897, read and approved the following Minute:—

1. The Aid Grant will be allotted according as schools are grouped together in Associations recognised by the Department, or are not so grouped.

2. As a general rule, an Association will not be recognised by the Department unless it extends over a sufficiently wide area, and includes a large number of schools.

3. An Association may include schools of all denominations. More than one Association may be recognised in the same area, but only one Association may be recognised as providing exclusively for schools of the same denomination in the same area.

4. Subject to the provisions of Sub-sections (1) and (3) (a) of Clause 1 of the Act, the rate of Aid Grant per scholar in average attendance, for the purposes of allotment, will be prescribed by the Department for each financial year, and will differ according as the scholar is in a school situate in a town or in the country. The rate prescribed for each scholar in average attendance in a town school will be somewhat higher than that for each scholar in average attendance in a country school.

5. The Aid Grant will be allotted to each Association upon the basis of the average attendance of scholars in the schools of the Association. The average attendance in each school, for the purposes of the Aid Grant in each financial year, will be taken to be the average attendance for the school year ended next before the 1st day of August last preceding.

6. Out of the sum not at first allotted to the Associations, Aid Grant will, subject to the provisions contained in Sub-section (5) of Clause 1 of the Act, be awarded to such of the unassociated schools as require special aid, and so far as such aid is in the opinion of the Department required.

7. The surplus (if any) of the Aid Grant remaining, after setting aside a sum sufficient to satisfy the needs of the unassociated schools under the last preceding paragraph, will be allotted amongst the Associations upon the same basis of distribution as has been specified above, with regard to their original share of the Aid Grant.

8. The Aid Grant to schools in Associations will be distributed to the schools in each Association, in accordance with a scheme prepared by the Governing Body of the Association and approved by the Department, under Sub-section (4) of Clause (1) of the Act. In order to aid the Department in forming a judgment on the schemes submitted to Them, the purposes to which the grant is to be devoted in the case of the various schools aided, should as far as possible be specifically stated.

9. The Aid Grant to schools not in Associations will be distributed to such schools in accordance with the decision of the Department, having regard to the provisions of Sub-section (2) of Clause 1 of the Act.

10. Payment of the Aid Grant to the schools entitled to receive it will be made at such times and in such manner as the Department may direct.

MINUTE of the Committee of Council on Education, dated 16th June, 1897, defining "Town School" and "Country School," and fixing Rates of Aid Grant for such Schools (Voluntary Schools Act, 1897).

At the Council Chamber, Whitehall,

The 16th day of June 1897.

By the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education.

The Lords of the Committee of Council on Education, having had under consideration the Voluntary Schools Act, 1897 :—

Decided,—

A Voluntary School, which on the first day of April in any year is situated within the District of the County Council of London, or within a County Borough, Municipal Borough, or other Urban District, shall be a Town School for the purpose of any allotment of the Aid Grant under Section 1, 3 (a), of the Act during the year beginning the same 1st day of April, and any School not so situated shall be a Country School for the same purpose.

Their Lordships further decided, in virtue of the powers vested in them by the said Act, that until the issue of any further Minute in that behalf, the following rates be fixed for Town and Country Schools respectively :—

For Town Schools the rate of 5s. 9d. per scholar.

For Country Schools the rate of 3s. 3d. per scholar.

SCHEMES

UNDER

THE VOLUNTARY SCHOOLS ACT.

The Board of Education feel that the experience of the past four years has now made it possible to fix the distribution of the Aid Grant on a more permanent basis. In the original and subsequent schemes special provision has properly been made for the increase of Staff Expenditure in Schools which, from their poverty, had not previously been in a position to pay adequate salaries. This purpose has now, to a great extent, been effected so far as the limited funds at the disposal of Voluntary School Associations will allow, though the provision for maintaining Staff Expenditure must always remain as a first charge on the Aid Grant. On the other hand a satisfactory result of the Aid Grant has been the very marked improvement in the Equipment of Voluntary Schools. It may probably not be necessary to maintain the expenditure on Equipment at the high level of the past two years, but the renewal of Furniture and Apparatus and the cost of special Repairs or Improvements are necessarily recurrent charges on the income of every School. Many Schools, which would not otherwise be necessitous, are unable to defray such special expenditure from their local resources or the ordinary grants. It is therefore desirable that a reasonable proportion of the Aid Grant should every year be set apart for purposes of this description, and grants for Equipment made each year to such Schools as are on that occasion in need of special assistance.

In view of these considerations the Board of Education have thought it expedient slightly to modify the Schedule of purposes in Form 5 (V.S.). The modifications thus introduced will, it is hoped, at the same time tend to simplify the work of the Governing Bodies of Associations.

(1.) It will be observed that the purposes to which Aid Grant may be applied are now grouped under two main heads :—

- (a) Teaching power.
- (b) Equipment.

A.—TEACHING POWER.

I. It is intended that under this head those grants should be entered which are recommended for the purpose of enabling the School to meet its normal expenditure, of which expenditure the charge for maintaining salaries at an adequate level forms the

largest and most constant part. This head will therefore include all grants which would in the previous form have appeared either under Head A, "To maintenance of increase made since passing of the Act," or for salaries under Head C (a). It will, as before, be necessary for the Governing Body to select, with strict and impartial discrimination, the cases of real necessity, and to confine their recommendations, as far as possible, to such cases only. The Governing Body will recognise that whilst it is desirable to raise all Schools to as high a degree of efficiency as possible, it is more important to increase the efficiency of those Schools where the Standard is low than it is to enable an altogether exceptional standard to be maintained in a few Schools. They will therefore be careful not to recommend grants in cases where the necessity of the School appears to be due to an improvident use of the existing School Funds, to over-lavish expenditure, or to the adoption of a curriculum which is not well adapted to the circumstances of the School or to the needs of the district in which the School is situated.

It will, of course, be understood that the mere fact of Aid Grant having been recommended for the purpose of meeting the charge for Salaries in one year does not by itself constitute a claim for a renewed grant for this purpose in subsequent years. It will be the duty of the Governing Body each year to satisfy themselves that the circumstances of the School are still such as to make the proposed grant reasonable and necessary for the maintenance of due efficiency, having regard to the amount by which the normal expenditure of the School is likely to exceed the actual income (inclusive of all items but the Aid Grant) for the same year.

II. Natural changes in the circumstances of the Schools will in the ordinary course make it possible from time to time to reduce in some instances the amount of grant recommended under Head A.I. From the funds which will be thus set free it will be possible for the Governing Body to meet those cases in which it is necessary to provide for an increase in Staff Expenditure, whether by the appointment of a new or more highly qualified teacher or by the raising of the salary of a deserving member of the existing staff of the School.

Before, however, the Governing Body recommend any grant under this head, they should satisfy themselves that an addition to the staff is necessary, or that the qualifications and service of the existing staff are such as to warrant an increase in the scale of salaries.

III.—IV. Provision for the better instruction of pupil teachers, and for instruction in Cookery or other special subjects, are in themselves so desirable as to make it expedient to retain these heads as specific purposes for Aid Grant. It will be well, wherever possible, that the grants recommended under these heads should form part of an organised scheme for the general benefit of the Schools in a particular district.

Schemes under the Voluntary Schools Act

B.—EQUIPMENT.

It is desired that the grants under this head should be devoted exclusively to meeting emergencies and expenditure of a special and exceptional character. The intention of all such grants should be to enable the School to meet some special outlay which could not be defrayed out of the ordinary income of the School. Grants should not be recommended for such ordinary repairs or purchases as form part of the necessary annual expenditure of every school.

In each case the precise nature of the proposed purpose should be ascertained and clearly specified in the place provided on the Schedule. Special care must be taken to ensure that the grant will be applied only to purposes which can properly be charged to the School accounts. It will for this purpose be necessary to keep in view the regulations of the Accounts Circular and the provisions of Article 90 of the Code.

C.—Purposes which do not come under either of the two principal heads should be recommended sparingly. Grants cannot be approved for "Rent of School Buildings"; the rent of teachers' houses, or of premises for special instruction do not require to be provided for otherwise than is secured by Heads A.I. and IV. "Fuel, Light and Cleaning" is not a suitable purpose for Aid Grant, since it forms part of the normal expenditure of all Schools.

In several Schemes numerous grants for "Organising Visitor" have been recommended. Whilst the Board of Education recognise the excellent work which has thus been provided for, they doubt whether the general application of small grants to this purpose is altogether expedient; the Schools should be able to meet these payments out of their ordinary income without recourse to the Aid Grant. The Board do not desire to debar the Governing Body of an Association from the exercise of a wide discretion, but it is hoped that grants of this class will, as a general rule, be confined to cases where the services of the "Organising Visitor" are admittedly desired and necessary. The Board of Education will in no case allow the acceptance of the services of an Organising Visitor to be made a condition of Aid Grant.

(2.) Under the Voluntary Schools Act the Aid Grant must be distributed with "due regard to the maintenance of Voluntary Subscriptions." It is therefore necessary that every Governing Body, when preparing its Scheme, should have special regard to the amount of local support afforded to the several Schools. Where the amount of such support is materially below what might be reasonably expected, or where the lack of funds appears to arise from apathetic management, the Governing Body will exercise a wise discretion as to the amount of grant, if any, to be

recommended under Head A. to meet the normal expenditure of the School. Still less should a grant be recommended (save in exceptional cases) to meet necessities which are due to an actual diminution of the Voluntary Subscriptions.

Wherever the income from local sources has diminished, the Governing Body should be careful to inquire into the facts and satisfy themselves as to whether it is due to unavoidable causes. They should further call the special attention of this Board to the cases of Schools where the amount of local support is seriously inadequate, and should remember that the Board may be unable to sanction recommendations of Aid Grant to Schools whose Managers have not made reasonable efforts to secure and maintain a proper measure of local support.

In close connection with the question of Voluntary Contributions comes the charge of Rent for School Buildings (as determining the amount of effective local support towards the maintenance of the School). In all cases where a new rent or an increased rent has been charged since the passing of the Voluntary Schools Act inquiry has been made by this Board, and when the circumstances have made such a course desirable the Aid Grant has been reduced or withheld altogether. In other instances the Board have sanctioned payment of the Aid Grant only on the understanding that the charge will be discontinued or met by a corresponding increase of Voluntary Contributions. It will, of course, be understood that in any case the Rent must be legally chargeable and reasonable in amount. The amount and nature of every charge for Rent should be specially considered by the Governing Body before recommending an award of Aid Grant.

March, 1901.

I.—List of Associations constituted under the Voluntary Schools Act, 1897 showing for each Association, the area, the number of Schools, the total average attendance as computed in accordance with the Minute of 9th April 1897, and the share of Aid Grant allotted for the financial year ending 31st March 1901.

NOTE.

The average attendance is the total average attendance of the Scholars in the School of the Association for the School years ended next before 1st August 1899. (See paragraph 5 of the Minute of the Committee of Council, dated 9th April 1897).

VOLUNTARY SCHOOLS ACT, 1897.

[60 VICT. c. 5.]

AN ACT to provide for a Grant out of the Exchequer in Aid of Voluntary Elementary Schools, and for the Exemption from Rates of those Schools, and to repeal part of Section Nineteen of the Elementary Education Act, 1876.

A.D. 1897

[8th April 1897.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

1—(1.) For aiding voluntary schools there shall be annually paid out of moneys provided by Parliament an aid grant, not exceeding in the aggregate five shillings per scholar for the whole number of scholars in those schools.

Aid grant to
voluntary
elementary
schools.

(2.) The aid grant shall be distributed by the Education Department to such voluntary schools and in such manner and amounts as the Department think best for the purpose of helping necessitous schools and increasing their efficiency, due regard being had to the maintenance of voluntary subscriptions.

(3.) If Associations of schools are constituted in such manner in such areas and with such governing bodies representative of the managers as are approved by the Education Department, there shall be allotted to each Association while so approved,

(a) A share of the aid grant to be computed according to the number of scholars in the schools of the Association at the rate of five shillings per scholar, or, if the Department fix different rates for town and country schools respectively (which they are hereby empowered to do) then at those rates ; and

(b) A corresponding share of any sum which may be available out of the aid grant after distribution has been made to unassociated schools.

(4.) The share so allotted to each such Association shall be distributed as aforesaid by the Education Department after consulting the governing body of the Association, and in accordance with any scheme prepared by that body which the Department for the time being approve.

(5.) The Education Department may exclude a school from any share of the aid grant which it might otherwise receive, if, in the opinion of the Department, it unreasonably refuses or fails to join such an Association, but the refusal or failure shall not be deemed unreasonable if the majority of the schools in the Association belong to a religious denomination to which the school in question does not itself belong.

A.D. 1897. (6.) The Education Department may require, as a condition of a school receiving a share of the aid grant, that the accounts of the receipts and expenditure of the school shall be annually audited in accordance with the regulations of the Department.

(7.) The decision of the Education Department upon any question relating to the distribution or allotment of the aid grant, including the question whether an Association is or is not in conformity with this Act, and whether a school is a town or a country school, shall be final.

Repeal of
17s. 6d. limit
in 39 and 40
Vict., c. 79,
s. 19, as
respects day
schools in
England and
Wales.

2. After the last day of March, One thousand eight hundred and ninety-seven, the following words in section nineteen of the Elementary Education Act, 1876, namely, "such grant shall not in any year be reduced by reason of its excess above the income of the school if the grant do not exceed the amount of seven-teen shillings and sixpence per child in average attendance at the school during that year, but shall not exceed that amount per child, except by the same sum by which the income of the school derived from voluntary contributions, rates, school fees, endowments, or any source whatever other than the Parliamentary grant, exceeds the said amount per child, and" shall be repealed so far as they apply to day schools in England and Wales.

Exemption
from rates of
voluntary
elementary
schools.

3. No person shall be assessed or rated to or for any local rate in respect of any land or buildings used exclusively or mainly for the purposes of the schoolrooms, offices, or playground of a voluntary school, except to the extent of any profit derived by the managers of the school from the letting thereof.

Definitions.

4. In this Act, unless the context otherwise requires—

The expression "voluntary school" means a public elementary day school not provided by a school board:

Any reference to the number of scholars in schools means the number of scholars in average attendance as computed by the Education Department:

The expression "local rate" means a rate the proceeds of which are applicable to public local purposes, and which is leviable on the basis of an assessment in respect of the yearly value of property, and includes any sum which, though obtained in the first instance by a precept, certificate or other instrument requiring payment from some authority or officer, is or can be ultimately raised out of a local rate as before defined:

Other expressions have the same meaning as in the Elementary Education Acts, 1870 to 1893.

Extent of
Act and
short title.

5.—(1.) This Act shall not extend to Scotland or Ireland.

(2.) This Act may be cited as the Voluntary Schools Act, 1897.

VOLUNTARY SCHOOLS ACT, 1897.

MINUTE of the Lords of the Committee of the Privy Council
on Education.

At the Council Chamber, Whitehall,

The 9th day of April 1897.

By the Lords of the Committee of Her Majesty's Most
Honourable Privy Council on Education.

Their Lordships, having had under consideration Section 1 of the Voluntary Schools Act, 1897, read and approved the following Minute:—

1. The Aid Grant will be allotted according as schools are grouped together in Associations recognised by the Department, or are not so grouped.

2. As a general rule, an Association will not be recognised by the Department unless it extends over a sufficiently wide area, and includes a large number of schools.

3. An Association may include schools of all denominations. More than one Association may be recognised in the same area, but only one Association may be recognised as providing exclusively for schools of the same denomination in the same area.

4. Subject to the provisions of Sub-sections (1) and (3) (a) of Clause 1 of the Act, the rate of Aid Grant per scholar in average attendance, for the purposes of allotment, will be prescribed by the Department for each financial year, and will differ according as the scholar is in a school situate in a town or in the country. The rate prescribed for each scholar in average attendance in a town school will be somewhat higher than that for each scholar in average attendance in a country school.

5. The Aid Grant will be allotted to each Association upon the basis of the average attendance of scholars in the schools of the Association. The average attendance in each school, for the purposes of the Aid Grant in each financial year, will be taken to be the average attendance for the school year ended next before the 1st day of August last preceding.

6. Out of the sum not at first allotted to the Associations, Aid Grant will, subject to the provisions contained in Sub-section (5) of Clause 1 of the Act, be awarded to such of the unassociated schools as require special aid, and so far as such aid is in the opinion of the Department required.

7. The surplus (if any) of the Aid Grant remaining, after setting aside a sum sufficient to satisfy the needs of the unassociated schools under the last preceding paragraph, will be allotted amongst the Associations upon the same basis of distribution as has been specified above, with regard to their original share of the Aid Grant.

8. The Aid Grant to schools in Associations will be distributed to the schools in each Association, in accordance with a scheme prepared by the Governing Body of the Association and approved by the Department, under Sub-section (4) of Clause (1) of the Act. In order to aid the Department in forming a judgment on the schemes submitted to Them, the purposes to which the grant is to be devoted in the case of the various schools aided, should as far as possible be specifically stated.

9. The Aid Grant to schools not in Associations will be distributed to such schools in accordance with the decision of the Department, having regard to the provisions of Sub-section (2) of Clause 1 of the Act.

10. Payment of the Aid Grant to the schools entitled to receive it will be made at such times and in such manner as the Department may direct.

MINUTE of the Committee of Council on Education, dated 16th June, 1897, defining "Town School" and "Country School," and fixing Rates of Aid Grant for such Schools (Voluntary Schools Act, 1897).

At the Council Chamber, Whitehall,

The 16th day of June 1897.

By the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education.

The Lords of the Committee of Council on Education, having had under consideration the Voluntary Schools Act, 1897 :—

Decided,—

A Voluntary School, which on the first day of April in any year is situated within the District of the County Council of London, or within a County Borough, Municipal Borough, or other Urban District, shall be a Town School for the purpose of any allotment of the Aid Grant under Section 1, 3 (a), of the Act during the year beginning the same 1st day of April, and any School not so situated shall be a Country School for the same purpose.

Their Lordships further decided, in virtue of the powers vested in them by the said Act, that until the issue of any further Minute in that behalf, the following rates be fixed for Town and Country Schools respectively :—

For Town Schools the rate of 5s. 9d. per scholar.

For Country Schools the rate of 3s. 3d. per scholar.

S C H E M E S

UNDER

THE VOLUNTARY SCHOOLS ACT.

The Board of Education feel that the experience of the past four years has now made it possible to fix the distribution of the Aid Grant on a more permanent basis. In the original and subsequent schemes special provision has properly been made for the increase of Staff Expenditure in Schools which, from their poverty, had not previously been in a position to pay adequate salaries. This purpose has now, to a great extent, been effected so far as the limited funds at the disposal of Voluntary School Associations will allow, though the provision for maintaining Staff Expenditure must always remain as a first charge on the Aid Grant. On the other hand a satisfactory result of the Aid Grant has been the very marked improvement in the Equipment of Voluntary Schools. It may probably not be necessary to maintain the expenditure on Equipment at the high level of the past two years, but the renewal of Furniture and Apparatus and the cost of special Repairs or Improvements are necessarily recurrent charges on the income of every School. Many Schools, which would not otherwise be necessitous, are unable to defray such special expenditure from their local resources or the ordinary grants. It is therefore desirable that a reasonable proportion of the Aid Grant should every year be set apart for purposes of this description, and grants for Equipment made each year to such Schools as are on that occasion in need of special assistance.

In view of these considerations the Board of Education have thought it expedient slightly to modify the Schedule of purposes in Form 5 (V.S.). The modifications thus introduced will, it is hoped, at the same time tend to simplify the work of the Governing Bodies of Associations.

(1.) It will be observed that the purposes to which Aid Grant may be applied are now grouped under two main heads:—

- (a) Teaching-power.
- (b) Equipment.

A.—TEACHING POWER.

I. It is intended that under this head those grants should be entered which are recommended for the purpose of enabling the School to meet its normal expenditure, of which expenditure the charge for maintaining salaries at an adequate level forms the

largest and most constant part. This head will therefore include all grants which would in the previous form have appeared either under Head A, "To maintenance of increase made since passing of the Act," or for salaries under Head C (a). It will, as before, be necessary for the Governing Body to select, with strict and impartial discrimination, the cases of real necessity, and to confine their recommendations, as far as possible, to such cases only. The Governing Body will recognise that whilst it is desirable to raise all Schools to as high a degree of efficiency as possible, it is more important to increase the efficiency of those Schools where the standard is low than it is to enable an altogether exceptional standard to be maintained in a few Schools. They will therefore be careful not to recommend grants in cases where the necessity of the School appears to be due to an improvident use of the existing School Funds, to over-lavish expenditure, or to the adoption of a curriculum which is not well adapted to the circumstances of the School or to the needs of the district in which the School is situated.

It will, of course, be understood that the mere fact of Aid Grant having been recommended for the purpose of meeting the charge for Salaries in one year does not by itself constitute a claim for a renewed grant for this purpose in subsequent years. It will be the duty of the Governing Body each year to satisfy themselves that the circumstances of the School are still such as to make the proposed grant reasonable and necessary for the maintenance of due efficiency, having regard to the amount by which the normal expenditure of the School is likely to exceed the actual income (inclusive of all items but the Aid Grant) for the same year.

II. Natural changes in the circumstances of the Schools will in the ordinary course make it possible from time to time to reduce in some instances the amount of grant recommended under Head A.I. From the funds which will be thus set free it will be possible for the Governing Body to meet those cases in which it is necessary to provide for an increase in Staff Expenditure, whether by the appointment of a new or more highly qualified teacher or by the raising of the salary of a deserving member of the existing staff of the School.

Before, however, the Governing Body recommend any grant under this head, they should satisfy themselves that an addition to the staff is necessary, or that the qualifications and service of the existing staff are such as to warrant an increase in the scale of salaries.

III.—IV. Provision for the better instruction of pupil teachers, and for instruction in Cookery or other special subjects, are in themselves so desirable as to make it expedient to retain these heads as specific purposes for Aid Grant. It will be well, wherever possible, that the grants recommended under these heads should form part of an organised scheme for the general benefit of the Schools in a particular district.

B.—EQUIPMENT.

It is desired that the grants under this head should be devoted exclusively to meeting emergencies and expenditure of a special and exceptional character. The intention of all such grants should be to enable the School to meet some special outlay which could not be defrayed out of the ordinary income of the School. Grants should not be recommended for such ordinary repairs or purchases as form part of the necessary annual expenditure of every school.

In each case the precise nature of the proposed purpose should be ascertained and clearly specified in the place provided on the Schedule. Special care must be taken to ensure that the grant will be applied only to purposes which can properly be charged to the School accounts. It will for this purpose be necessary to keep in view the regulations of the Accounts Circular and the provisions of Article 90 of the Code.

C.—Purposes which do not come under either of the two principal heads should be recommended sparingly. Grants cannot be approved for "Rent of School Buildings;" the rent of teachers' houses, or of premises for special instruction do not require to be provided for otherwise than is secured by Heads A.I. and IV. "Fuel, Light and Cleaning" is not a suitable purpose for Aid Grant, since it forms part of the normal expenditure of all Schools.

In several Schemes numerous grants for "Organising Visitor" have been recommended. Whilst the Board of Education recognise the excellent work which has thus been provided for, they doubt whether the general application of small grants to this purpose is altogether expedient; the Schools should be able to meet these payments out of their ordinary income without recourse to the Aid Grant. The Board do not desire to debar the Governing Body of an Association from the exercise of a wide discretion, but it is hoped that grants of this class will, as a general rule, be confined to cases where the services of the "Organising Visitor" are admittedly desired and necessary. The Board of Education will in no case allow the acceptance of the services of an Organising Visitor to be made a condition of Aid Grant.

(2.) Under the Voluntary Schools Act the Aid Grant must be distributed with "due regard to the maintenance of Voluntary Subscriptions." It is therefore necessary that every Governing Body, when preparing its Scheme, should have special regard to the amount of local support afforded to the several Schools. Where the amount of such support is materially below what might be reasonably expected, or where the lack of funds appears to arise from apathetic management, the Governing Body will exercise a wise discretion as to the amount of grant, if any, to be

recommended under Head A. to meet the normal expenditure of the School. Still less should a grant be recommended (save in exceptional cases) to meet necessities which are due to an actual diminution of the Voluntary Subscriptions.

Wherever the income from local sources has diminished, the Governing Body should be careful to inquire into the facts and satisfy themselves as to whether it is due to unavoidable causes. They should further call the special attention of this Board to the cases of Schools where the amount of local support is seriously inadequate, and should remember that the Board may be unable to sanction recommendations of Aid Grant to Schools whose Managers have not made reasonable efforts to secure and maintain a proper measure of local support.

In close connection with the question of Voluntary Contributions comes the charge of Rent for School Buildings (as determining the amount of effective local support towards the maintenance of the School). In all cases where a new rent or an increased rent has been charged since the passing of the Voluntary Schools Act inquiry has been made by this Board, and when the circumstances have made such a course desirable the Aid Grant has been reduced or withheld altogether. In other instances the Board have sanctioned payment of the Aid Grant only on the understanding that the charge will be discontinued or met by a corresponding increase of Voluntary Contributions. It will, of course, be understood that in any case the Rent must be legally chargeable and reasonable in amount. The amount and nature of every charge for Rent should be specially considered by the Governing Body before recommending an award of Aid Grant.

March, 1901.

List of Voluntary Schools Associations shewing for each Association the total amount of Voluntary Contributions (including Church Collections, Proceeds of Bazaars, etc.) as shewn in Forms 9 by the School Managers for the School Year which in each case preceded the first distribution of Aid Grant and for the Schools Years which ended in 1898, 1899, and 1900.

VOLUNTARY SCHOOLS ACT, 1897.

[60 VICT. c. 5.]

AN ACT to provide for a Grant out of the Exchequer in Aid of Voluntary Elementary Schools, and for the Exemption from Rates of those Schools, and to repeal part of Section Nineteen of the Elementary Education Act, 1876.

A.D. 1897.

[8th April 1897.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

1.—(1.) For aiding voluntary schools there shall be annually paid out of moneys provided by Parliament an aid grant, not exceeding in the aggregate five shillings per scholar for the whole number of scholars in those schools.

Aid grant to
voluntary
elementary
schools.

(2.) The aid grant shall be distributed by the Education Department to such voluntary schools and in such manner and amounts as the Department think best for the purpose of helping necessitous schools and increasing their efficiency, due regard being had to the maintenance of voluntary subscriptions.

(3.) If Associations of schools are constituted in such manner in such areas and with such governing bodies representative of the managers as are approved by the Education Department, there shall be allotted to each Association while so approved,

(a) A share of the aid grant to be computed according to the number of scholars in the schools of the Association at the rate of five shillings per scholar, or, if the Department fix different rates for town and country schools respectively (which they are hereby empowered to do) then at those rates ; and

(b) A corresponding share of any sum which may be available out of the aid grant after distribution has been made to unassociated schools.

(4.) The share so allotted to each such Association shall be distributed as aforesaid by the Education Department after consulting the governing body of the Association, and in accordance with any scheme prepared by that body which the Department for the time being approve.

(5.) The Education Department may exclude a school from any share of the aid grant which it might otherwise receive, if, in the opinion of the Department, it unreasonably refuses or fails to join such an Association, but the refusal or failure shall not be deemed unreasonable if the majority of the schools in the Association belong to a religious denomination to which the school in question does not itself belong.

A.D. 1897.

(6.) The Education Department may require, as a condition of a school receiving a share of the aid grant, that the accounts of the receipts and expenditure of the school shall be annually audited in accordance with the regulations of the Department.

(7.) The decision of the Education Department upon any question relating to the distribution or allotment of the aid grant, including the question whether an Association is or is not in conformity with this Act, and whether a school is a town or a country school, shall be final.

Repeal of
17s. 6d. limit
in 39 and 40
Vict., c. 79,
s. 19, as
respects day
schools in
England and
Wales.

2. After the last day of March, One thousand eight hundred and ninety-seven, the following words in section nineteen of the Elementary Education Act, 1876, namely, "such grant shall not in any year be reduced by reason of its excess above the income of the school if the grant do not exceed the amount of seven-teen shillings and sixpence per child in average attendance at the school during that year, but shall not exceed that amount per child, except by the same sum by which the income of the school derived from voluntary contributions, rates, school fees, endowments, or any source whatever other than the Parliamentary grant, exceeds the said amount per child, and" shall be repealed so far as they apply to day schools in England and Wales.

Exemption
from rates of
voluntary
elementary
schools.

3. No person shall be assessed or rated to or for any local rate in respect of any land or buildings used exclusively or mainly for the purposes of the schoolrooms, offices, or playground of a voluntary school, except to the extent of any profit derived by the managers of the school from the letting thereof.

Definitions

4. In this Act, unless the context otherwise requires—

The expression "voluntary school" means a public elementary day school not provided by a school board:

Any reference to the number of scholars in schools means the number of scholars in average attendance as computed by the Education Department:

The expression "local rate" means a rate the proceeds of which are applicable to public local purposes, and which is leviable on the basis of an assessment in respect of the yearly value of property, and includes any sum which, though obtained in the first instance by a precept, certificate or other instrument requiring payment from some authority or officer, is or can be ultimately raised out of a local rate as before defined:

Other expressions have the same meaning as in the Elementary Education Acts, 1870 to 1893.

Extent of
Act and
short title.

5.—(1.) This Act shall not extend to Scotland or Ireland.

(2.) This Act may be cited as the Voluntary Schools Act, 1897.

VOLUNTARY SCHOOLS ACT, 1897.

MINUTE of the Lords of the Committee of the Privy Council
on Education.

At the Council Chamber, Whitehall,

The 9th day of April 1897.

By the Lords of the Committee of Her Majesty's Most
Honourable Privy Council on Education.

Their Lordships, having had under consideration Section 1 of the Voluntary Schools Act, 1897, read and approved the following Minute:—

1. The Aid Grant will be allotted according as schools are grouped together in Associations recognised by the Department, or are not so grouped.

2. As a general rule, an Association will not be recognised by the Department unless it extends over a sufficiently wide area, and includes a large number of schools.

3. An Association may include schools of all denominations. More than one Association may be recognised in the same area, but only one Association may be recognised as providing exclusively for schools of the same denomination in the same area.

4. Subject to the provisions of Sub-sections (1) and (3) (a) of Clause 1 of the Act, the rate of Aid Grant per scholar in average attendance, for the purposes of allotment, will be prescribed by the Department for each financial year, and will differ according as the scholar is in a school situate in a town or in the country. The rate prescribed for each scholar in average attendance in a town school will be somewhat higher than that for each scholar in average attendance in a country school.

5. The Aid Grant will be allotted to each Association upon the basis of the average attendance of scholars in the schools of the Association. The average attendance in each school, for the purposes of the Aid Grant in each financial year, will be taken to be the average attendance for the school year ended next before the 1st day of August last preceding.

6. Out of the sum not at first allotted to the Associations, Aid Grant will, subject to the provisions contained in Sub-section (5) of Clause 1 of the Act, be awarded to such of the unassociated schools as require special aid, and so far as such aid is in the opinion of the Department required.

7. The surplus (if any) of the Aid Grant remaining, after setting aside a sum sufficient to satisfy the needs of the unassociated schools under the last preceding paragraph, will be allotted amongst the Associations upon the same basis of distribution as has been specified above, with regard to their original share of the Aid Grant.

8. The Aid Grant to schools in Associations will be distributed to the schools in each Association, in accordance with a scheme prepared by the Governing Body of the Association and approved by the Department, under Sub-section (4) of Clause (1) of the Act. In order to aid the Department in forming a judgment on the schemes submitted to Them, the purposes to which the grant is to be devoted in the case of the various schools aided, should as far as possible be specifically stated.

9. The Aid Grant to schools not in Associations will be distributed to such schools in accordance with the decision of the Department, having regard to the provisions of Sub-section (2) of Clause 1 of the Act.

10. Payment of the Aid Grant to the schools entitled to receive it will be made at such times and in such manner as the Department may direct.

MINUTE of the Committee of Council on Education, dated 16th June, 1897, defining "Town School" and "Country School," and fixing Rates of Aid Grant for such Schools (Voluntary Schools Act, 1897).

At the Council Chamber, Whitehall,

The 16th day of June 1897.

By the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education.

The Lords of the Committee of Council on Education, having had under consideration the Voluntary Schools Act, 1897 :—

Decided,—

A Voluntary School, which on the first day of April in any year is situated within the District of the County Council of London, or within a County Borough, Municipal Borough, or other Urban District, shall be a Town School for the purpose of any allotment of the Aid Grant under Section 1, 3 (a), of the Act during the year beginning the same 1st day of April, and any School not so situated shall be a Country School for the same purpose.

Their Lordships further decided, in virtue of the powers vested in them by the said Act, that until the issue of any further Minute in that behalf, the following rates be fixed for Town and Country Schools respectively :—

For Town Schools the rate of 5s. 9d. per scholar.

For Country Schools the rate of 3s. 3d. per scholar.

S C H E M E S

UNDER

THE VOLUNTARY SCHOOLS ACT.

The Board of Education feel that the experience of the past four years has now made it possible to fix the distribution of the Aid Grant on a more permanent basis. In the original and subsequent schemes special provision has properly been made for the increase of Staff Expenditure in Schools which, from their poverty, had not previously been in a position to pay adequate salaries. This purpose has now, to a great extent, been effected so far as the limited funds at the disposal of Voluntary School Associations will allow, though the provision for maintaining Staff Expenditure must always remain as a first charge on the Aid Grant. On the other hand a satisfactory result of the Aid Grant has been the very marked improvement in the Equipment of Voluntary Schools. It may probably not be necessary to maintain the expenditure on Equipment at the high level of the past two years, but the renewal of Furniture and Apparatus and the cost of special Repairs or Improvements are necessarily recurrent charges on the income of every School. Many Schools, which would not otherwise be necessitous, are unable to defray such special expenditure from their local resources or the ordinary grants. It is therefore desirable that a reasonable proportion of the Aid Grant should every year be set apart for purposes of this description, and grants for Equipment made each year to such Schools as are on that occasion in need of special assistance.

In view of these considerations the Board of Education have thought it expedient slightly to modify the Schedule of purposes in Form 5 (V.S.). The modifications thus introduced will, it is hoped, at the same time tend to simplify the work of the Governing Bodies of Associations.

(1.) It will be observed that the purposes to which Aid Grant may be applied are now grouped under two main heads:—

- (a) Teaching power.
- (b) Equipment.

A.—TEACHING POWER.

I. It is intended that under this head those grants should be entered which are recommended for the purpose of enabling the School to meet its normal expenditure, of which expenditure the charge for maintaining salaries at an adequate level forms the

largest and most constant part. This head will therefore include all grants which would in the previous form have appeared either under Head A, "To maintenance of increase made since passing of the Act," or for salaries under Head C (a). It will, as before, be necessary for the Governing Body to select, with strict and impartial discrimination, the cases of real necessity, and to confine their recommendations, as far as possible, to such cases only. The Governing Body will recognise that whilst it is desirable to raise all Schools to as high a degree of efficiency as possible, it is more important to increase the efficiency of those Schools where the standard is low than it is to enable an altogether exceptional standard to be maintained in a few Schools. They will therefore be careful not to recommend grants in cases where the necessity of the School appears to be due to an improvident use of the existing School Funds, to over-lavish expenditure, or to the adoption of a curriculum which is not well adapted to the circumstances of the School or to the needs of the district in which the School is situated.

It will, of course, be understood that the mere fact of Aid Grant having been recommended for the purpose of meeting the charge for Salaries in one year does not by itself constitute a claim for a renewed grant for this purpose in subsequent years. It will be the duty of the Governing Body each year to satisfy themselves that the circumstances of the School are still such as to make the proposed grant reasonable and necessary for the maintenance of due efficiency, having regard to the amount by which the normal expenditure of the School is likely to exceed the actual income (inclusive of all items but the Aid Grant) for the same year.

II. Natural changes in the circumstances of the Schools will in the ordinary course make it possible from time to time to reduce in some instances the amount of grant recommended under Head A.I. From the funds which will be thus set free it will be possible for the Governing Body to meet those cases in which it is necessary to provide for an increase in Staff Expenditure, whether by the appointment of a new or more highly qualified teacher or by the raising of the salary of a deserving member of the existing staff of the School.

Before, however, the Governing Body recommend any grant under this head, they should satisfy themselves that an addition to the staff is necessary, or that the qualifications and service of the existing staff are such as to warrant an increase in the scale of salaries.

III.—IV. Provision for the better instruction of pupil teachers, and for instruction in Cookery or other special subjects, are in themselves so desirable as to make it expedient to retain these heads as specific purposes for Aid Grant. It will be well, wherever possible, that the grants recommended under these heads should form part of an organised scheme for the general benefit of the Schools in a particular district.

B.—EQUIPMENT.

It is desired that the grants under this head should be devoted exclusively to meeting emergencies and expenditure of a special and exceptional character. The intention of all such grants should be to enable the School to meet some special outlay which could not be defrayed out of the ordinary income of the School. Grants should not be recommended for such ordinary repairs or purchases as form part of the necessary annual expenditure of every school.

In each case the precise nature of the proposed purpose should be ascertained and clearly specified in the place provided on the Schedule. Special care must be taken to ensure that the grant will be applied only to purposes which can properly be charged to the School accounts. It will for this purpose be necessary to keep in view the regulations of the Accounts Circular and the provisions of Article 90 of the Code.

C.—Purposes which do not come under either of the two principal heads should be recommended sparingly. Grants cannot be approved for "Rent of School Buildings;" the rent of teachers' houses, or of premises for special instruction do not require to be provided for otherwise than is secured by Heads A.I. and IV. "Fuel, Light and Cleaning" is not a suitable purpose for Aid Grant, since it forms part of the normal expenditure of all Schools.

In several Schemes numerous grants for "Organising Visitor" have been recommended. Whilst the Board of Education recognise the excellent work which has thus been provided for, they doubt whether the general application of small grants to this purpose is altogether expedient; the Schools should be able to meet these payments out of their ordinary income without recourse to the Aid Grant. The Board do not desire to debar the Governing Body of an Association from the exercise of a wide discretion, but it is hoped that grants of this class will, as a general rule, be confined to cases where the services of the "Organising Visitor" are admittedly desired and necessary. The Board of Education will in no case allow the acceptance of the services of an Organising Visitor to be made a condition of Aid Grant.

(2.) Under the Voluntary Schools Act the Aid Grant must be distributed with "due regard to the maintenance of Voluntary Subscriptions." It is therefore necessary that every Governing Body, when preparing its Scheme, should have special regard to the amount of local support afforded to the several Schools. Where the amount of such support is materially below what might be reasonably expected, or where the lack of funds appears to arise from apathetic management, the Governing Body will exercise a wise discretion as to the amount of grant, if any, to be

recommended under Head A. to meet the normal expenditure of the School. Still less should a grant be recommended (save in exceptional cases) to meet necessities which are due to an actual diminution of the Voluntary Subscriptions.

Wherever the income from local sources has diminished, the Governing Body should be careful to inquire into the facts and satisfy themselves as to whether it is due to unavoidable causes. They should further call the special attention of this Board to the cases of Schools where the amount of local support is seriously inadequate, and should remember that the Board may be unable to sanction recommendations of Aid Grant to Schools whose Managers have not made reasonable efforts to secure and maintain a proper measure of local support.

In close connection with the question of Voluntary Contributions comes the charge of Rent for School Buildings (as determining the amount of effective local support towards the maintenance of the School). In all cases where a new rent or an increased rent has been charged since the passing of the Voluntary Schools Act inquiry has been made by this Board, and when the circumstances have made such a course desirable the Aid Grant has been reduced or withheld altogether. In other instances the Board have sanctioned payment of the Aid Grant only on the understanding that the charge will be discontinued or met by a corresponding increase of Voluntary Contributions. It will, of course, be understood that in any case the Rent must be legally chargeable and reasonable in amount. The amount and nature of every charge for Rent should be specially considered by the Governing Body before recommending an award of Aid Grant.

March, 1901.

List of Voluntary Schools Associations shewing for each Association the total amount of Voluntary Contributions (including Church Collections, Proceeds of Bazaars, etc.) as shewn in Forms 9 by the School Managers for the School Year which in each case preceded the first distribution of Aid Grant and for the Schools Years which ended in 1898, 1899, 1900, and 1901.

I.—List of Associations constituted under the Voluntary Schools Act, 1897, showing for each Association, the area, the number of Schools, the total average attendance as computed in accordance with the Minute of 9th April 1897, and the share of Aid Grant allotted for the financial year ending 31st March 1903.

NOTE.

The average attendance is the total average attendance of the Scholars in the Schools of the Association for the School years ended next before 1st August 1901. (See paragraph 5 of the Minute of the Committee of Council, dated 9th April 1897.)

III.—List of Unassociated Schools (164), showing for each School the Amount, if any, of Aid Grant paid, for the Financial Year ending 31st March 1903.

NOTE.

The list includes (a) Schools (116) not applying for Aid Grant; (b) Schools (6) refused Aid Grant as not being necessitous [Voluntary Schools Act, § 1 (2)]; (c) Schools (18) excluded from Aid Grant as having unreasonably failed to join an Association [Voluntary Schools Act, § 1 (5)]; (d) Schools (3) excluded from Aid Grant having ceased to be conducted as Voluntary Schools before Aid Grant was distributed.

I.—PREFATORY MEMORANDUM.

It has been the custom of the Board of Education to issue, year by year, a report on the distribution of the Aid Grant paid under the Voluntary Schools Act, 1897. This Aid Grant was an annual grant, payable in respect of each financial year, and the report on its distribution was published annually to correspond with the period for which payment was due. The last report issued by the Board dealt with the financial year ending March 31st, 1903.

The Education Act, 1902, however, which repealed Section 1 of the Voluntary Schools Act, 1897, under which the Aid Grant was paid, necessitated a material difference in the method of procedure in paying the grant. The repeal took effect in each area on the date on which the new Act came into force, but as this date differed in different areas, it followed that the Voluntary Schools Act also remained in force in some localities for longer periods than in others. In areas where the appointed day for the new Act fell on the earliest possible date, viz., on April 1st, 1903, which date was also the beginning of the new financial year, no Aid Grant, other than that paid for the financial year ending 31st March, 1903, accrued in respect of any attendances in those areas. But in areas for which the appointed days fell on dates subsequent to April 1st, 1903, Aid Grant under the Voluntary Schools Act, 1897, continued to accrue in respect of the periods which elapsed between April 1st, 1903, and the various appointed days.

Under these circumstances the Board of Education decided that instead of issuing one report for the broken periods which fell within the financial year commencing on April 1st, 1903, and another for the few remaining periods in the following year, it would be more convenient to issue one report which would embrace all these broken periods in one volume. The present report therefore contains a complete account of the manner in which the Aid Grant has been distributed between the first and the last possible appointed days under the Education Act, 1902, namely, between April 1st, 1903, and September 26th, 1904.

But the effect of this piecemeal repeal of the Voluntary Schools Act, 1897, was not only to necessitate the Aid Grant being paid

for different periods in different areas. It also necessitated a material change in the methods of distributing the Aid Grant, which in turn has led to the statistics in this volume being presented in a somewhat different form from that hitherto employed. In order to make this clear, it will be well to explain briefly the system of distribution which prevailed up to the passing of the new Act.

The amount of Aid Grant payable annually was a sum not exceeding in the aggregate five shillings per scholar for the whole number of scholars in average attendance in the Voluntary Schools, and the average attendance of each School for the purposes of the Aid Grant in any financial year, was taken to be the average attendance for the school year ending next before the 1st day of August last preceding. It follows that it was always possible to calculate exactly, before the beginning of each year, the amount of Aid Grant available for distribution during that year. It was also possible to calculate beforehand the rates at which the Aid Grant could be allotted to the various Associations in respect of town schools and country schools. These rates were fixed in the year 1897 at 5s. 9d. for children in town schools and 3s. 3d. for those in country schools, and up to the year 1903 there had been no necessity to alter them. Throughout these years it was found that grants of 5s. 9d. and 3s. 3d. per head in respect of town and country scholars respectively, amounted approximately to the total sum available for distribution, viz., an aggregate of 5s. per scholar on the total average attendance in all the schools combined. But it is clear that had the average attendance of children in town schools largely increased at any time while that of the country schools diminished, it would have been necessary to lower one or both of these rates, to prevent the amount allocated to the Associations exceeding the available grant. It did in fact happen during the financial year 1904-5 that, amongst the Schools in respect of which any Aid Grant was payable, the normal proportion of Town Schools to Country Schools was no longer found to obtain, and it was decided therefore to reduce the rate for Town Schools from 5s. 9d. to 5s. 6d.

The amount of the total available Aid Grant for any year and the rates at which it could be allotted to the Associations being known then beforehand, it was possible for the Board of Education to acquaint each Association on April 1st of each year with the amount of Grant at their disposal for the ensuing year, and this was always done. The Governing Bodies then prepared their schemes, and the Aid Grant was paid direct to the various schools as soon as the schemes were approved.

The successive repeal of the Voluntary Schools Act at different times in different areas made this procedure impossible for

the years beginning April 1st, 1903 and 1904. None of the data on which the Board had previously relied were forthcoming. The amount of grant available in respect of each unit of average attendance in a Voluntary School was no longer 5s., but one-twelfth of that amount for each month between April 1st and the appointed day for the district in which the School was situated, and the total Aid Grant could not be calculated therefore till every appointed day was definitely settled.

The procedure, therefore, which was adopted to meet these changes was as follows: The Board, instead of making their allotments of Aid Grant on April 1st, 1903 and 1904, were compelled to wait until much later in the financial year, in fact until all, or nearly all, the appointed days which fell during the financial year were known. They then calculated the total aggregate of Aid Grant on the basis of one-twelfth of 5s. per unit of average attendance in any school for each month before the appointed day for that school. In allotting Aid Grant to a particular Association, they allotted one-twelfth of 5s. 9d. (5s. 6d. in 1904-5) in respect of each unit of average attendance in Town Schools during each month between April 1st and the appointed day for each school, and similarly one-twelfth of 3s. 3d. for the average attendance in country schools.

The amount of the allotment of Aid Grant having eventually been communicated to the Governing Body of each Association, it became necessary for them to decide how they would deal with the Grant at their disposal. There were two methods open to them. They could, if they wished, prepare a scheme under the Voluntary Schools Act, 1897, Section 1 (4), as in previous years, and recommend the immediate distribution of Aid Grant direct to their necessitous schools. On the other hand, they could, if they chose, make use of the new power conferred on them by the Education Act, 1902, Schedule II., Section 12, and apply to the Board of Education to pay the whole of the Aid Grant direct to the Governing Body of the Association on satisfying the Board that proper arrangements had been made for its application.

In cases where the former method was preferred, the Governing Body proceeded to submit their recommendations for the distribution of the Aid Grant as in former years. Where the latter method was chosen, the Governing Body were asked to submit for the approval of the Board a scheme showing their arrangements for the application of the Grant, and, as soon as such scheme was formally approved and the Board satisfied that due provision was made for the appointment of Trustees on behalf of the governing bodies, the Aid Grant due to the Association was paid over by the Board to such Trustees. These schemes naturally differed from one another in various

particulars, but they agreed in providing that any Aid Grant paid to an Association in this way should only be expended on objects for which provision had to be made by Managers of Schools under the Education Act, 1902, namely, on ordinary repairs and such alterations and improvements as might be required by the Local Education Authority, and such enlargements as did not fall within the provisions of Section 8 (2) of the Act.

It may be pointed out here that the difference between these two methods of dealing with the Aid Grant was not merely one of administration. Aid Grant which was paid direct to the Managers of the School under the Voluntary Schools Act, Section 1 (4), though it was actually paid after the appointed day, owing to administrative difficulties which have already been explained, was given to assist the former Managers in meeting expenses of maintenance for which they were responsible up to the appointed day. Assistance, on the other hand, given out of a general fund instituted under the Education Act, 1902, Schedule II, Section 12, was directed to objects for which the new managing bodies constituted under the Act were responsible. In deciding, therefore, as to the method by which they would deal with their Aid Grant, the Governing Body of an Association had virtually to decide whether they would help the original managers or the managers constituted under the new Act. It was for this reason that many Associations decided to deal with their grant partly under one system and partly under the other, their object being to assist specially necessitous schools, which, but for the Aid Grant, must have suffered in efficiency in the last period prior to the appointed day, and to retain a balance with which to form a fund to assist new managers in the future in meeting their responsibilities under the Education Act, 1902.

It may be added that for convenience of reference, the schools comprised in any one Association have been grouped in the following lists according to the areas of the new Local Education Authorities, and for the same purpose two appendices have been added, one being a list, under Geographical Counties, of Local Education Authorities shewing the Voluntary School Associations with which the schools of each Authority are associated, the other being a list of Associations shewing the Local Education Authorities which maintain the schools in each Association, with the number of schools under each Authority.

The above remarks will explain the principal points in which the following report differs from those of previous years. A few minor points require some explanation.

In former reports a table has been given showing for each Association the total amount of voluntary contributions as

shown in Forms 9 by School Managers, both for the school year which in each case preceded the first distribution of Aid Grant, and also for subsequent school years. The passing of the Education Act, 1902, by transferring to the Local Education Authorities the responsibility for maintaining all Public Elementary Schools in their various areas, introduced a new factor into the accounts of Voluntary Schools, and made any comparison with previous years impossible. The table which shewed the statistics of voluntary contributions in previous reports has therefore been omitted in the present issue.

A comparison of the list of Associations in the following report with that of former years will show that some of the Associated Schools have been re-grouped during the period under consideration, and that some Associations have been divided into two or more separate Associations. The principal changes have been as follows:—

The Berkshire Association was merged into the Oxford Diocesan Association.

The Dorsetshire Schools, which up to April 1st, 1903, formed part of the Salisbury Diocesan Association, joined the Dorset Association, and the Salisbury Diocesan Association subsequently changed its name to the "Sarum and Wiltshire Association."

The Worcester Diocesan Association divided into three separate Associations, each coterminous with one of the Archdeaconries of the Diocese, viz:

The Birmingham Church Schools' Association,
The Coventry Church Schools' Association, and
The Worcester Church Schools' Association.

Five of the Roman Catholic Associations divided into two, the newly formed Associations in each case comprising a single Roman Catholic Diocese. The former Clifton and Newport Diocesan Association is now divided into the Clifton Diocesan Association and the Newport Diocesan Association; the former Leeds and Middlesbrough Diocesan Association into the Leeds Diocesan Association and the Middlesbrough Diocesan Association; the former Nottingham and Northampton Diocesan Association into the Nottingham Diocesan Association and the Northampton Diocesan Association; the former Shrewsbury and Menevia Diocesan Association into the Shrewsbury Diocesan Association and the Menevia Diocesan Association; and the former South West Association into the Plymouth Diocesan Association and the Portsmouth Diocesan Association.

These changes bring the total number of Associations to whom Aid Grant was paid during the period under review to 81. Of this number, 33 Associations recommended the distribution of their entire Grant direct to Associated Schools, and their functions under the Voluntary Schools Act therefore have been completed. The remaining Associations, 48 in number, applied for the whole or part of the Aid Grant to be paid direct to the Governing Body under the Education Act, 1902, Schedule II, Section 12, and these Associations therefore remain in existence for the special purposes of this Section of the Act, their Constitution being governed in each case by their approved Declaration of Trust, and Common Fund Scheme. They have in some cases amalgamated with local bodies, such as Diocesan Education Boards, so as to form a combined educational body to assist and advise the Voluntary Schools in their area. But no Aid Grants under the Voluntary Schools Act, 1897, will be paid to any Association beyond those which are accounted for in the present report, which is therefore the last statement on the subject which will be issued by the Board of Education.

(a) List of Associations constituted under the Voluntary Schools Act, 1897, showing for each Association, the area; the number of Schools in the Association, the number of Schools in respect of which Aid Grant was allotted; and the total average attendance of such Schools as computed in accordance with the Minute of 9th April 1897; the amount paid to the Governing Bodies for the purposes of Common Funds formed under the Education Act, 1902, Schedule II. (12); the amount distributed direct to necessitous Schools as in previous years in accordance with the Voluntary Act, 1897, § 1 (4); and the share of Aid Grant allotted for the financial year ending 31st March 1904.

TE.

The average attendance is the total average attendance of the Scholars in the Schools of the Association for the School years ended next before 1st August 1902. (See page 252, paragraph 5 of the Minute of the Committee of Council, dated 9th April 1897.)

--------	-----------------------	----	----	--------	----------	-----------	------------	-----

II. (b)—List of Associations showing in detail for each Association (i.) the Schools in the Association classified as Town and Country in accordance with the Minute of 16th June, 1897, and arranged under the various Local Education Authorities; and (ii.) showing for each school the amount, if any, of Aid Grant paid.

NOTE :—

Town Schools are printed in italics.

N. or Ch. denotes that the School is in connection with the National Society, or with the Church of England; B., with the British and Foreign School Society; W., with the Wesleyan Methodists; R.C., with the Roman Catholic Poor School Committee; P., that it is a Parochial School.

The phrase, "Area under the County Council" denotes the area which is under the County Council for the purposes of Part III. of the Education Act, 1902.

III. (a)—List of Associations to which any Aid Grant was allotted, during the financial year ending March 31st, 1905, showing for each the number of schools in respect of which Aid Grant was allotted; the total average attendance of such schools as computed in accordance with the Minute of 9th April, 1897; the amount paid to the Governing Bodies for the purposes of Common Funds formed under the Education Act, 1902, Schedule II. (12); the amount distributed direct to necessitous Schools, as in previous years, in accordance with the Voluntary Schools Act, 1897, Section I. (4); the share of Aid Grant allotted during the financial year ending 31st March, 1905; and the schools, if any, to which Aid Grant was distributed, with the amount paid.

NOTE.—A complete list of the Schools in each Association may be found in Section II. b. of this Report. In the following Section it has only been considered necessary to print the names of the Schools to which Aid Grant was paid direct under the Voluntary Schools Act, 1897, Section I. 4, during the financial year ending March 31st, 1905.

APPENDIX C.
VOLUNTARY SCHOOLS ACT, 1897.

[60 VICT. c. 5.]

A.D. 1897.

AN ACT to provide for a Grant out of the Exchequer in Aid of Voluntary Elementary Schools, and for the Exemption from Rates of those Schools, and to repeal part of Section Nineteen of the Elementary Education Act, 1876.

[8th April 1897.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

Aid grant to
voluntary
elementary
schools.

1.—(1.) For aiding voluntary schools there shall be annually paid out of moneys provided by Parliament an aid grant, not exceeding in the aggregate five shillings per scholar for the whole number of scholars in those schools.

(2.) The aid grant shall be distributed by the Education Department to such voluntary schools and in such manner and amounts as the Department think best for the purpose of helping necessitous schools and increasing their efficiency, due regard being had to the maintenance of voluntary subscriptions.

(3.) If Associations of schools are constituted in such manner in such areas and with such governing bodies representative of the managers as are approved by the Education Department, there shall be allotted to each Association while so approved,

(a) A share of the aid grant to be computed according to the number of scholars in the schools of the Association at the rate of five shillings per scholar, or, if the Department fix different rates for town and country schools respectively (which they are hereby empowered to do) then at those rates ; and

(b) A corresponding share of any sum which may be available out of the aid grant after distribution has been made to unassociated schools.

(4.) The share so allotted to each such Association shall be distributed as aforesaid by the Education Department after consulting the governing body of the Association, and in accordance with any scheme prepared by that body which the Department for the time being approve.

(5.) The Education Department may exclude a school from any share of the aid grant which it might otherwise receive, if, in the opinion of the Department, it unreasonably refuses or fails to join such an Association, but the refusal or failure shall not be deemed unreasonable if the majority of the schools in the Association belong to a religious denomination to which the school in question does not itself belong.

(6.) The Education Department may require, as a condition of a school receiving a share of the aid grant, that the accounts of the receipts and expenditure of the school shall be annually audited in accordance with the regulations of the Department.

A.D. 1897.

(7.) The decision of the Education Department upon any question relating to the distribution or allotment of the aid grant, including the question whether an Association is or is not in conformity with this Act, and whether a school is a town or a country school, shall be final.

2.—After the last day of March, One thousand eight hundred and ninety-seven, the following words in section nineteen of the Elementary Education Act, 1876, namely, “such grant shall not in any year be reduced by reason of its excess above the income of the school if the grant do not exceed the amount of seven-teen shillings and sixpence per child in average attendance at the school during that year, but shall not exceed that amount per child, except by the same sum by which the income of the school derived from voluntary contributions, rates, school fees, endowments, or any source whatever other than the Parliamentary grant, exceeds the said amount per child, and” shall be repealed so far as they apply to day schools in England and Wales.

Repeal of 17s. 6d. limit in 39 and 40 Vict., c. 79, s. 19, as respects day schools in England and Wales.

3.—No person shall be assessed or rated to or for any local rate in respect of any land or buildings used exclusively or mainly for the purposes of the schoolrooms, offices, or playground of a voluntary school, except to the extent of any profit derived by the managers of the school from the letting thereof.

Exemption from rates of voluntary elementary schools.

4.—In this Act, unless the context otherwise requires—

Definitions.

The expression “voluntary school” means a public elementary day school not provided by a school board :

Any reference to the number of scholars in schools means the number of scholars in average attendance as computed by the Education Department :

The expression “local rate” means a rate the proceeds of which are applicable to public local purposes, and which is leviable on the basis of an assessment in respect of the yearly value of property, and includes any sum which, though obtained in the first instance by a precept, certificate or other instrument requiring payment from some authority or officer, is or can be ultimately raised out of a local rate as before defined :

Other expressions have the same meaning as in the Elementary Education Acts, 1870 to 1893.

5.—(1.) This Act shall not extend to Scotland or Ireland.

Extent of Act and short title.

(2.) This Act may be cited as the Voluntary Schools Act, 1897.

APPENDIX D.

VOLUNTARY SCHOOLS ACT, 1897.

MINUTE of the Lords of the Committee of the Privy Council
on Education.

At the Council Chamber, Whitehall,

The 9th day of April 1897.

By the Lords of the Committee of Her Majesty's Most
Honourable Privy Council on Education.

Their Lordships, having had under consideration Section 1 of the Voluntary Schools Act, 1897, read and approved the following Minute:—

1. The Aid Grant will be allotted according as schools are grouped together in Associations recognised by the Department, or are not so grouped.

2. As a general rule, an Association will not be recognised by the Department unless it extends over a sufficiently wide area, and includes a large number of schools.

3. An Association may include schools of all denominations. More than one Association may be recognised in the same area, but only one Association may be recognised as providing exclusively for schools of the same denomination in the same area.

4. Subject to the provisions of Sub-sections (1) and (3) (a) of Clause 1 of the Act, the rate of Aid Grant per scholar in average attendance, for the purposes of allotment, will be prescribed by the Department for each financial year, and will differ according as the scholar is in a school situate in a town or in the country. The rate prescribed for each scholar in average attendance in a town school will be somewhat higher than that for each scholar in average attendance in a country school.

5. The Aid Grant will be allotted to each Association upon the basis of the average attendance of scholars in the schools of the Association. The average attendance in each school, for the purposes of the Aid Grant in each financial year, will be taken to be the average attendance for the school year ended next before the 1st day of August last preceding.

6. Out of the sum not at first allotted to the Associations, Aid Grant will, subject to the provisions contained in Sub-section (5) of Clause 1 of the Act, be awarded to such of the unassociated schools as require special aid, and so far as such aid is in the opinion of the Department required.

7. The surplus (if any) of the Aid Grant remaining, after setting aside a sum sufficient to satisfy the needs of the unassociated schools under the last preceding paragraph, will be allotted amongst the Associations upon the same basis of distribution as has been specified above, with regard to their original share of the Aid Grant.

8. The Aid Grant to schools in Associations will be distributed to the schools in each Association, in accordance with a scheme prepared by the Governing Body of the Association and approved by the Department, under Sub-section (4) of Clause (1) of the Act. In order to aid the Department in forming a judgment on the schemes submitted to Them, the purposes to which the grant is to be devoted in the case of the various schools aided, should as far as possible be specifically stated.

9. The Aid Grant to schools not in Associations will be distributed to such schools in accordance with the decision of the Department, having regard to the provisions of Sub-section (2) of Clause 1 of the Act.

10. Payment of the Aid Grant to the schools entitled to receive it will be made at such times and in such manner as the Department may direct.

APPENDIX E.

MINUTE of the Committee of Council on Education, dated 16th June, 1897, defining "Town School" and "Country School," and fixing Rates of Aid Grant for such Schools (Voluntary Schools Act, 1897).

At the Council Chamber, Whitehall,

The 16th day of June, 1897.

By the Lords of the Committee of Her Majesty's Most Honourable Privy Council on Education.

The Lords of the Committee of Council on Education, having had under consideration the Voluntary Schools Act, 1897 :—

Decided,—

A Voluntary School, which on the first day of April in any year is situated within the District of the County Council of London, or within a County Borough, Municipal Borough, or other Urban District, shall be a Town School for the purpose of any allotment of the Aid Grant under Section 1, 3 (a), of the Act during the year beginning the same 1st day of April, and any School not so situated shall be a Country School for the same purpose.

Their Lordships further decided, in virtue of the powers vested in them by the said Act, that until the issue of any further Minute in that behalf, the following rates be fixed for Town and Country Schools respectively :—

For Town Schools the rate of 5s. 9d. per scholar.

For Country Schools the rate of 3s. 3d. per scholar.
